CAREER OBJECTIVE

Results-driven CS fresher skilled in full-stack web development, seeking a role to build scalable, user-focused applications and grow as a developer. Focused on writing **clean code**, **continuously learning**, and **delivering quality work** in a collaborative environment.

SKILLS

Languages C++, JavaScript
Frontend React, Redux Toolkit, React Router, HTML5, CSS3, TailwindCSS
Backend Node.js, Express.js, REST APIs, JWT
Databases MongoDB, Mongoose, MySQL
Tools Git, GitHub, Vite
Soft Skills Time Management, Adaptability, Problem Solving, Team Work

PROJECTS

URL Shortener Web Application

[Live Demo](#) | [Frontend](#) | [Backend](#)

- Developed a scalable full-stack URL shortening platform using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, designing **RESTful APIs** for URL creation, redirection, and analytics tracking.
- Implemented secure **JWT-based authentication and authorization**, including password hashing with bcrypt and middleware-based protected routes.
- Structured the backend using **MVC architecture**, optimized database performance with MongoDB indexing and unique constraints, and implemented real-time click tracking.
- Built a responsive frontend using React (Vite) and **Context API**, enabling session management, seamless **API integration**, and robust error handling.

ProjectSync

[GitHub](#)

- Developed a **responsive Project Management Web App** using **React** and **Tailwind CSS**, delivering a clean, modern, and intuitive user interface.
- Implemented key React concepts (**hooks**, **state management**, **reusable components**) and **secure authentication** (login, signup, logout) for smooth project workflow handling.
- Added features such as **task creation**, **status updates**, and **filtering**, while optimizing performance through **React best practices**.
- Designed a **structured folder architecture** and **modular component system**, improving code scalability and maintainability.

EDUCATION

B.Tech, CSE	Netaji Subhas Institute of Technology, Patna	GPA: 7.75 / 10	2021 - 2025
Class 12th	Cambridge Public School, Patna		2020
Class 10th	Sharons Public School, Patna		2018

CERTIFICATIONS

[C++ For C Programmers, Part A](#)

[HTML, CSS, And Javascript For Web Developer](#)
